

May 2020

Dear Parents/Carers and Year 9 students

Key Stage 4 Options

I hope this letter finds you safe and well.

I am writing to give you a brief update on the Options process and to provide reassurance that we are still working on the KS4 Curriculum in preparation for September. We would usually be writing a confirmation letter to students towards the end of May outlining their allocated Options. As you can imagine, all of the processes to enable us to do this are taking longer than usual due to our current circumstances. The Options process involves staffing, timetabling and curriculum planning and we are just finalising our staffing in preparation for September.

We aim to get these letters out to you as soon as possible. Based on our work so far, the vast majority of students will be able to undertake all of their four first choice Options. Where this is not the case, we will have individual conversations with those students to look at all available choices, but we envisage very few of these will be necessary.

Yours sincerely

Peter Hudson
Vice Principal
