Year 10 Support and Revision

Dear Parent/Carer

As part of our programme to address any Year 10 “catch-up” work, we are providing a range of support during this half term.

Intervention/catch-up support

These sessions target students where their current work and assessments suggest that they would benefit from some additional support to get them back on track. The outcomes from current end of year assessments will also guide staff towards the students that need this support. Invitations for these sessions will be communicated with parents from individual subject areas.

Revision sessions

These sessions are open to all students and staff will focus on skills and topics that they feel students would benefit the most by revisiting and reinforcing.

English, Maths and Science have started these programmes that run on Tuesday, Wednesday and Thursday respectively. But there are also several other departments that have been running these sessions already. Subject staff will inform students about the revision sessions and intervention/catch-up sessions will be communicated with parents by individual subject areas.

These sessions will continue through the Autumn term and throughout Year 11.

Yours sincerely

Mr P Hudson
Vice Principal
