

February 2022

Dear Parent/Carer

**Re: Cucina Food Price Increases**

Unfortunately, due to an exceptional period of inflation and a steep rise in food costs from their suppliers, Cucina have confirmed that they are going to implement a small price increase across some of their products.

Therefore, following our return after February half term, a small selection of products will increase by 5p. Please note that this increase will not affect any of the meal deals, including the most popular meal deal which will remain at £2.30 for a main meal with a free pudding or any of the healthier products we have for sale, e.g. fruit pots.

In addition, as a result of this rise, Cucina will be reviewing and re-engineering their menus to ensure they include a wider selection of several different affordable meal deals.

We hope you understand the situation we are all in and our dedication to continue serving great food for our students to enjoy.

Yours Sincerely

Mrs Charlotte Reed  
Director of Business and Support Services
