Dear Yr 13/14 Parents/Carers

### **Sixth Form Easter Revision**

With the summer exam season only six weeks away, I am sure your son/daughter is fully focused on a revision schedule which will enable them to optimise their performance. Hopefully they will have already reduced, if not eliminated, other commitments. I am pleased to say that a number of staff are putting on some intensive revision sessions during the Easter holiday. If your son/daughter is fortunate enough to study one of these subjects please do encourage them to attend and take full advantage of what is on offer. For Physics for example, we have a guest teacher coming in on Monday 11<sup>th</sup> April to focus on the topic of “electromagnetism” in particular.

The full programme of revision sessions can be found on the second and third page of this letter.

The run up to the summer is always a stressful time for students in Year 13/14, especially this year for students who, because of Covid-19, have not yet experienced external examinations. The better prepared students are often the less anxiety they will feel during the exams themselves. We are all here to offer support whenever it is needed. As a reminder, here are the contact details for each Assistant Director and the tutor groups they oversee, as well as the telephone and email address for Mrs Cockings, our Sixth Form Administrator.

Jan Cockings - **Sixth Form Administrator Tel: 01305 830560.** [jcockings@budmouth-aspirations.org](mailto:jcockings@budmouth-aspirations.org)

Please do talk at home about revision in general and accessing all the support available, both over the holiday and in school afterwards.

Best of luck to the students from us all for the forthcoming exams!

Yours sincerely
