## What the bursary can **not** be used for

You can not use the bursary for the following:

- \*Car insurance

## How does a student receive the bursary?

Students will be able to complete a bursary form which outlines what they require to be purchased, and the school will source and buy what the student needs. The student is then contacted and they will pick up their purchases from the sixth form or finance office.

If a student purchases something they require for their course themselves, they need to keep the receipts and complete a bursary form and bring it to the sixth form office so they can be reimbursed.

All students who are successful in obtaining the bursary need to have their own bank account, so funds can be reimbursed to them.

## Reasons why a student might not receive their bursary amount

- \*If a student's attendance falls below 95%
- \*If they are late to lessons
- \*If they fail to notify their tutor or the sixth form office when they require time off e.g. dentist/doctor/hospital appointments that cannot be arranged outside school hours, driving test.
