

Animal Parade

Year 7 Summer Term

Learning Objective

To understand the features of African Patterns

What can you see in this Africa illustration

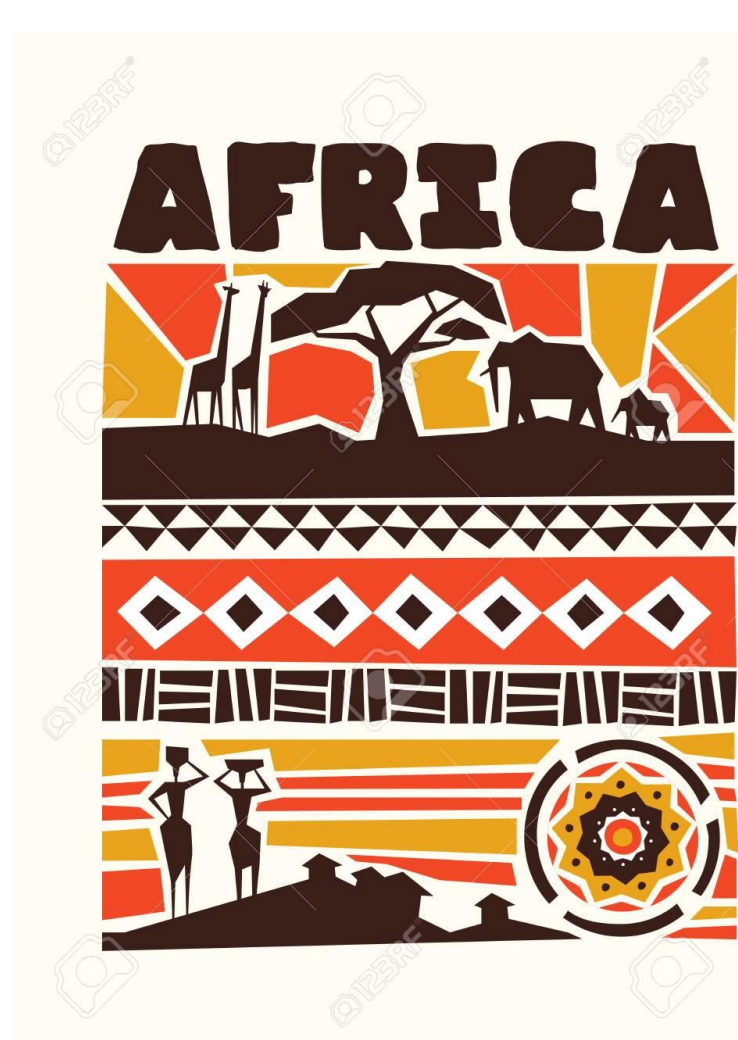

Images?

Colour?

Shape?

Any thing repeated?

Let's take a look at some more examples of African Patterns.....

Learning Objective

To understand the features of African Patterns

What do you think of these patterns?

Which one is your favourite?

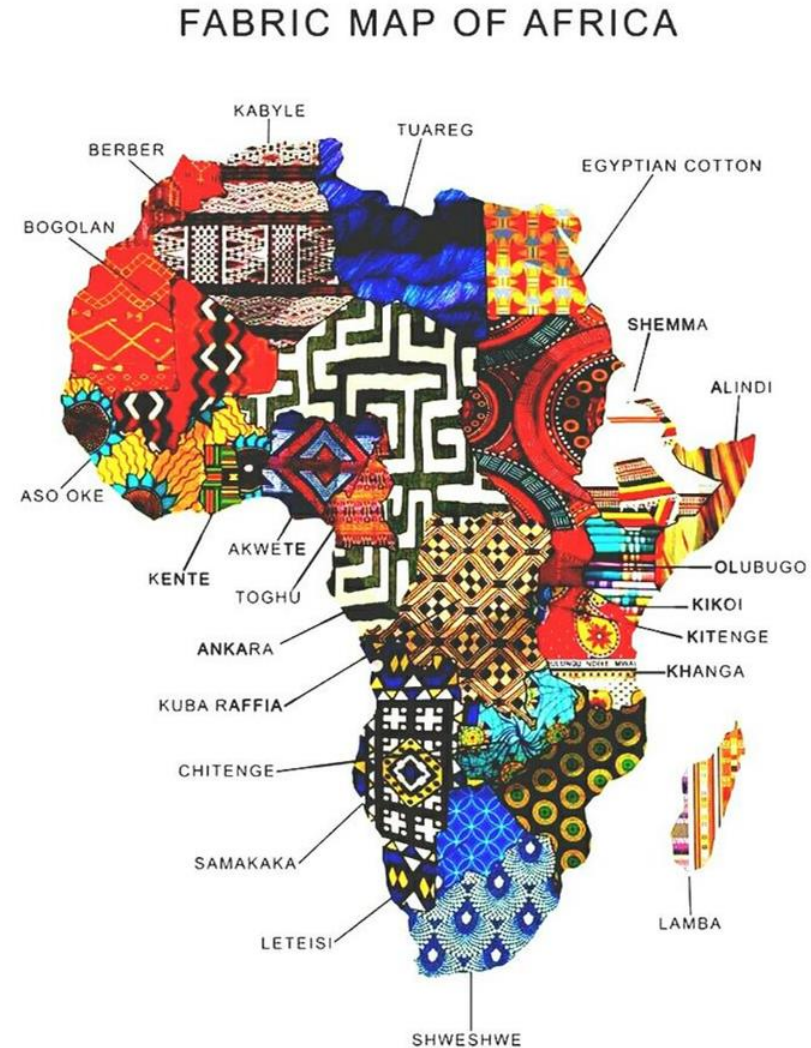

Learning Objective

To understand the features of African Patterns

Different styles of patterns come from different parts of Africa and can be seen on fabric designs across continent.

Take a look at this fabric map which shows the different area of Africa and where the patterned fabrics originate from.

The patterned fabrics are used in all sorts of textiles from clothes to furnishings.

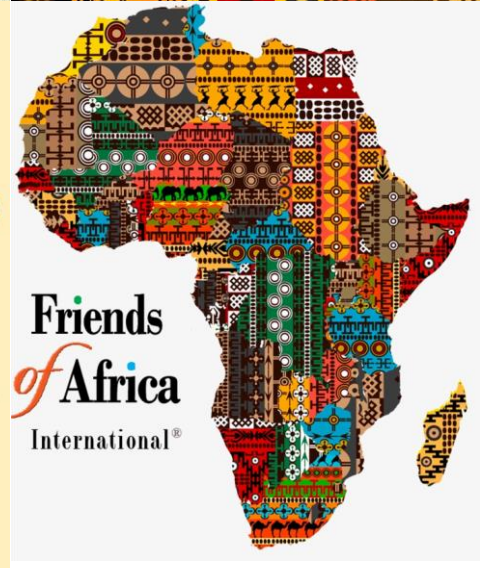

Learning Objective: To understand the features of African Patterns

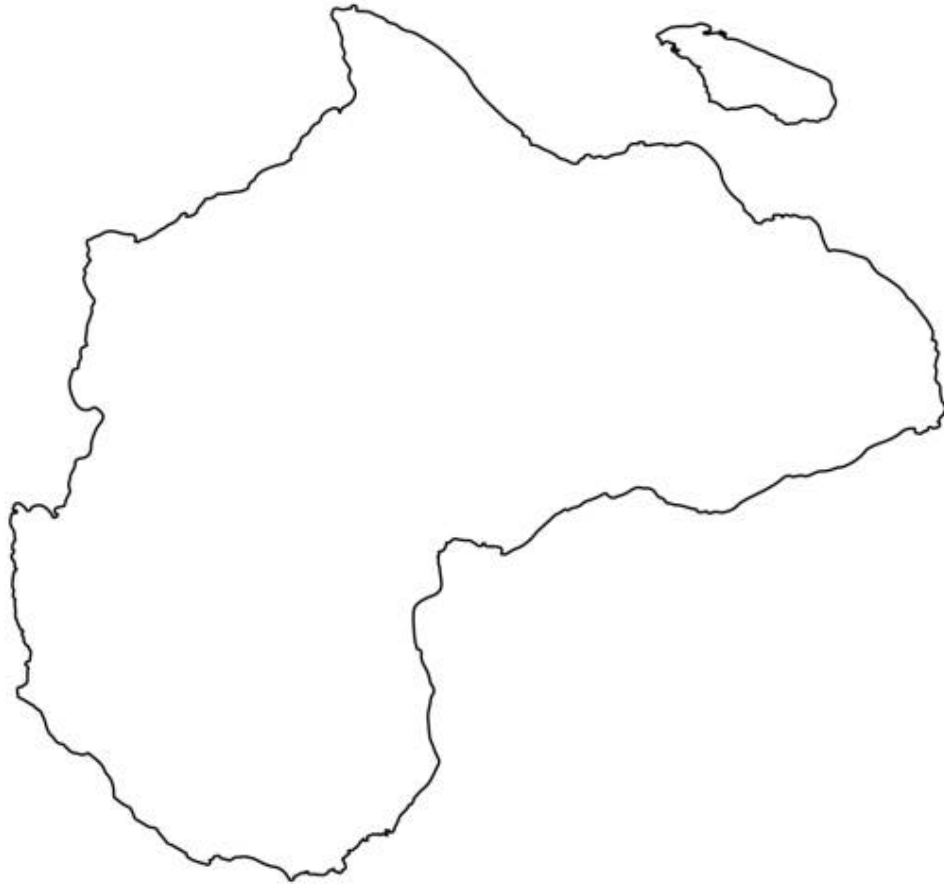

Design your own patterned Africa inspired by African Patterns and the fabric map.

Your designs could be inside or outside the outline of Africa in your learning booklet.

You should split your design into sections and fill each section with a different African inspired pattern.

Include geometric shapes and Earthy colours
